

Letter of recommendation for Jonas Maretti Gress

Jonas worked with us at FRVR Studio Ursus from August 1st 2022 to January 31st 2023 as a Game Developer and reported to me directly.

Jonas managed to hit the ground running when he joined the team working on a game for Discord. For a while he was the only programmer on the project and handled implementation and testing of features.

Jonas did a good job of making the team aware when scope was unrealistic or when there was a danger of missing deadlines. He also did a good job pitching in when things got tight towards the final deadline.

I have gotten to know Jonas as an easy going individual who is always in a good mood and it affects the entire team positively.

He also shows great participation in company meetings where he has built a good relationship with team members outside of his team as well.

Jonas is a delight to work with and I wouldn't hesitate to hire him again.

Should you have any further questions about Jonas, feel free to reach me at +45 20953487.

Thanks,
Peter Kjær Stoklund
